PERSONAL PROJECTS

NoteBook (02/2023 - 04/2023)

- Developed a secure cloud-based note storage system using MERN stack, ensuring privacy by implementing robust access controls, allowing users to store and manage personal notes with confidentiality.

News App (11/2022 - 01/2023)

- Designed and developed a dynamic news application using ReactJS that fetches real-time news through an API, providing users with a categorized and seamless browsing experience across various sections including general, IT, and sports.

Card Flip Game (03/2024 - 12/2024)

- Card Flip Game is a memory-based game where players match pairs of cards by flipping them over. The objective is to find all matching pairs by remembering their positions.
